Continuity of cataract surgeries under Gift A Vision Campaign

As part of the "Gift A Vision" campaign launched by HJ Foundation in collaboration with the Foundation of the First Lady of the DRC Denise Nyakeru Tshisekedi with the technical support of HJ Hospitals whose mission was to support more of 100 free cataract surgeries for poor people, these surgeries are continuing in the HJ Hospitals hospital complex.

Before their surgeries

On the way to the operating room

Support for neurological consultation and examinations (MRI and RX THORAX)

As our mission at HJ Foundation, to reach the best possible medical services to the

underprivileged, we undertook free of charge consultation and neurological examinations for an 8 year old kid diagnosed with epilepsy.

Support orthopedic consultation and examinations

Miss Masika has a mobility problem in her left knee, Mr. Harish Jagtani president of HJ Foundation has agreed to take charge of his special consultation with the orthopedist and the radio examination (RX-Knee face and profile) while waiting for the surgery in the next few days ...

Support for pediatric consultation and hospitalization

Referred to us by the government of the country, this years old baby was suffering from repeated fever and digestive problems without reaching any diagnosis. The required consultation and examinations with subsequent hospitalization was funder by HJ Foundation and the baby returned home after 5 days fully recovered.

Ophthalmological consultation

A 3 day ophthalmological screening was held at the HJ City Clinic Gombe under HJ Foundation's 'Gift A Vision' campaign. Around 80 patients were screened and around 20 patients who were detected with cataract will be operated.
