Free malaria screening camp at the Domus Angeli orphanage

In the continuity of the fight against malaria which still kills the whole of the African continent in general and in our country the DRC in particular, it is in this context to fight against malaria that HJ Foundation has carried out a free malaria screening campaign at the Domus Angeli orphanage in the town of Masina where we were able to screen around twenty children with the support of our various partners.

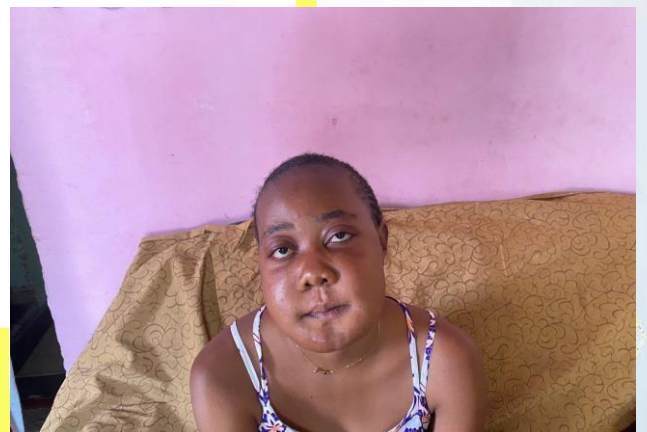

In full screening

Delivery of medicines

Visit of patient Fatou with a mandibular tumor

The HJ Foundation team had visited the patient Fatou Mbongo who has been living

with a mandibular tumor since the age of 3, she is now 18, she is an orphan of father and mother, she is adopted, her adoptive family also lacks the financial means to have her undergo this surgery, which is why, they asked for help from HJ Foundation.

Delivery of food for Patient Emmanuella

Delivery of food for patient Emmanuella Luntadila, this little girl who had serious digestive problems had her colostomy operated on in May with the expense of HJ Foundation. After her surgery she had to have a healthy diet, her mother could not take care of it that Mr. Harish Jagtani has agreed to take care of her food by making a provision for her every weekend.
